THARAKA NISANSALA BALASOORIYA

Computer Science Graduate | Software Development | AI Integration

+94 70 571 8956 | tbalasuriya2001@gmail.com

LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in software development, full-stack web applications, API integration, and AI-powered application development. Experienced in working with React.js, Next.js, TypeScript, JavaScript, Python, Node.js, Express.js, FastAPI, and SQL databases. Contributed to real-world web applications and AI-based systems, including debugging, feature development, system integration, and software validation. Familiar with Git-based development workflows, Docker, REST APIs, and modern application architectures. Currently expanding knowledge of AWS and cloud technologies. A motivated and adaptable developer with strong problem-solving skills and an interest in building reliable, scalable, and maintainable software solutions.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python, Java, C, C++, PHP, SQL
Frontend Development: React.js, Next.js, HTML5, CSS3, Vite
Backend Development: Node.js, Express.js, FastAPI, Flask
API and Integration: REST APIs, API Integration, JSON, GraphQL
Databases: PostgreSQL, MySQL, Supabase
AI and Machine Learning: LLM Integration, Gemini API, Prompt Engineering, Machine Learning, Computer Vision, MediaPipe
Software Testing and Quality: Functional Testing, Feature Validation, Debugging, Issue Reproduction, Regression Testing
Development Tools: Git, GitHub, Docker, VS Code, Jupyter Notebook
Cloud Technologies: AWS (Currently Learning)

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern *June 2026 – Present*
RAAHI Inc. | Remote

- Develop and maintain web application features using React.js, JavaScript, TypeScript, and modern frontend technologies.
- Work with Node.js and Express.js on backend functionality and API integrations.
- Contribute to Izzy, an AI-powered travel assistant, working on AI integration, retrieval logic, and response reliability improvements.
- Investigate and debug application issues, validate implemented features, and improve application behaviour.
- Work with Git and GitHub for version control, collaborative development, and code management.

AI Developer Intern *March 2026 – August 2026*
Thrimaa Interactive | Remote

- Contributed to AI-enabled business applications, including an AI Hotel Management System and an HR Management System.
- Worked with Next.js, React.js, FastAPI, and PostgreSQL across frontend and backend development tasks.
- Integrated application components and APIs to support system functionality.
- Investigated technical issues, performed functionality validation, and contributed to application improvements.
- Used Docker in the development workflow and collaborated with team members throughout development.

EDUCATION

Bachelor of Science (Honours) in Computer Science *2026*
University of Jaffna, Sri Lanka

PROJECTS

AI Career Assistant
React.js, TypeScript, Vite, Node.js, Express.js, Supabase

- Developed an AI-powered career assistance application supporting job-search and application workflows.
- Worked on frontend functionality, backend services, API integration, and database connectivity.
- GitHub: Source Code | Live Demo: View Application

Izzy – AI-Powered Travel Assistant
Node.js, Express.js, Gemini API, Information Retrieval

- Contributed to an AI-powered travel assistant integrated with the RAAHI platform.
- Worked on retrieval improvements, AI response validation, debugging, and application reliability.
- Project: RAAHI Website

Javelin Throw Technique Classification
Python, MediaPipe, Computer Vision, Machine Learning

- Developed a computer-vision research project to classify javelin throwing techniques using pose data and machine-learning methods.
- GitHub: Source Code

Yummy Union – Web Application
Python, Flask, HTML, CSS, JavaScript

- Developed a web application using Flask and frontend web technologies.
- GitHub: Source Code

PROFESSIONAL STRENGTHS

- Analytical Thinking and Problem-Solving
- Software Debugging and Attention to Detail
- Team Collaboration and Communication
- Adaptability and Continuous Learning
- Time Management and Task Ownership
- Focus on Software Quality and Reliability
